SUBJECT INDEX

Advanced cancer patients, relaxation and imagery for anxiety and depression in, 432
Advanced practice, nursing role in, 196
Affective response, to Pap smear, intention to repeat test and, 385
African American men, genetic susceptibility testing for prostate cancer in, 28
Aloe vera gel, efficacy of on irradiated breast tissue, 442
Alternative medicine, for hot flashes after breast cancer, 104
Analgesics, in cancer pain management in home care patients, 470
Antiestrogens, for breast cancer, 6S
Anxiety
  in families of children with cancer, 66
  relaxation and imagery for in advanced cancer patients, 432
Aqueous cream, efficacy of on irradiated breast tissue, 442
Aromatase inhibitors, for breast cancer, 6S
Assessment instruments, translation of, 1
At-risk population, genetic testing to identify, 15
Attendance patterns, for cervical cancer screening, 377
Attractiveness, sense of, in testicular cancer survivors, 187
Australia, research barriers, priorities, and strategies in, 167
Autologous peripheral blood stem cell transplantation, for multiple myeloma, 452

Bereavement process, influence of truth disclosure of cancer diagnosis on in Japanese families, 396
Biologic surrogate endpoints, genetics in, 110
Body image concerns, in sexual functioning after breast cancer treatment, 57
Body integrity, infringement of with illness, 141
Body mass index, in osteoporosis risk in postmenopausal breast cancer survivors, 50
Body size, in osteoporosis risk in postmenopausal breast cancer survivors, 50
Bone marrow transplantation, ethical issues of informed consent for in children, 81
Bone mineral density, in osteoporosis risk in postmenopausal breast cancer survivors, 50
Brain tumor, malignant, family's perspective on living with, 236
Breast cancer
  advanced, estrogen receptor downregulators for, 2S
  chemotherapy-induced menopause and sexual functioning with, 57
  computer-assisted intervention for enhanced communication with physician about, 417
  continuing education test on treatments of, 18S
  endocrine therapies for, 6S
  evaluating patient education for radiation therapy in, 266
  fatigue with adjuvant chemotherapy for, 283
    continuing education test for, 298
  health-related behaviors and lifestyle factors in patients with, 219
  magnetic therapy for hot flashes after, 104
  metastatic, patient education on endocrine therapy for, 12S
  postmenopausal survivors of at risk for osteoporosis, 50
  risk factor and screening awareness for among nurses and teachers in Jordan, 276
  suffering in women with, 96
  topical aloe vera gel with radiation therapy for, 442
Breast Cancer Knowledge Test, for breast cancer risk factor and screening awareness among nurses and teachers in Jordan, 276
Breast cancer screening, awareness of among nurses and teachers in Jordan, 276
Breast cancer survivors, exercise in, 88
Breast self-examination
  among Korean women, 391
  knowledge of in breast cancer patients, 219
Breast tissue, efficacy of topical aloe vera gel on, 442

Caffeine intake
  in breast cancer patients, 219
  in osteoporosis risk in postmenopausal breast cancer survivors, 50
Calcium intake, in osteoporosis risk in postmenopausal breast cancer survivors, 50
Cancer metaphors, 230
Cancer narratives
  expressive metaphors in, 230
  meaning of alleviated suffering in, 318
Cancer nursing services, developing, delivering, and evaluating, 404
Cancer pain
  overcoming patient-related barriers to management of, 470
  reluctance to use opioids for, 125
Cancer predisposition testing, nursing role in, 196
Cancer survivors
  exercise in, 88
  postmenopausal, osteoporosis risk in, 50
Cancer susceptibility
  continuing education test on genetic testing for, 26
  genetic influences of, 110
  genetic testing for, 15
  genetic testing for among African American men, 28
Cancer treatment
  coping strategies for symptoms distress during, 309
  information needs about in prostate cancer patients and partners, 35
  psychosocial home visits in, 350
CancerHelp software survey, of Latino patients in US-Mexican border hospital, 245
Care-related information needs, of Japanese family caregivers for newly diagnosed cancer patients, 181
Caregiver Quality of Life Index, psychometric properties of, 342
Caregiver Quality of Life Index-Cancer Scale, psychometric properties of, 342
Caregivers
  quality of life instruments for, 342
  rating patient physical and psychological symptom well-being, 358
Caring, for women with breast cancer, 96

Caring encounters, in cancer narratives, 230
Cervical cancer, women's knowledge about, 377
Cervical cancer screening, women's knowledge about, 377
Champion's Health Belief Model Scale, for Korean women, 391
Chemoprevention, for high-risk populations, 110
Chemotherapy
facilitating coping with fatigue during, 300
fatigue with in breast cancer patients, 283
continuing education test for, 298
sexual functioning and in women with breast cancer, 57
Children
with cancer
family stress with, 66
health-related quality of life in, 74
enrolled in bone marrow transplantation research, 81
Chinese population, Index of Nausea, Vomiting, and Retching translation in, 134
Chinese women, knowledge about cervical cancer and screening among, 377
Clinical cancer care
applications of molecular biology and genomics to, 110
molecular biology and genomics in, 123
Clinical research, informed consent for children in, 81
Colorectal cancer
finding meaning in, 141
screening for, health beliefs of first-degree relatives and, 251
support group programs for, 150
Communication, truthful, nurse attitudes toward, 436
Complementary medicine, for hot flashes after breast cancer, 104
Comprehensive Breast Cancer Questionnaire, for breast cancer risk factor and screening awareness among nurses and teachers in Jordan, 276
Computer-assisted intervention, for enhanced communication of breast cancer patient and physician, 417
Computer-based education, for cancer patients at Latino border hospital, 245
Conference calendar, 7, 109, 218, 332, 390, 457
Confirmatory factor analysis, for measuring health-related quality of life in children with cancer, 74
Connectedness, with alleviated suffering, 318
Construct validity, in measuring health-related quality of life in children with cancer, 74
Content analysis, of family's perspective on living with malignant brain tumor, 236
Continuing education tests
on advances in molecular biology and genomics in clinical cancer care, 123
on breast cancer treatment, 18S
on complications of radiation therapy from head and neck cancers, 468
on fatigue with adjuvant chemotherapy in breast cancer patients, 298
on genetic testing for cancer predisposition, 26
for patients with cancer and next-of-kin response comparability on physical and psychological symptom well-being, 375
on role of nurse in cancer genetics, 207
Coping strategies
for breast cancer patients receiving radiation therapy, 266
for colorectal cancer, 141
for fatigue during chemotherapy, 300
for stress in cancer patients, 425
for symptom distress in non-small cell lung cancer patients, 309
Cross-cultural assessment, translation of instruments in, 1
Cross-sectional study, of breast cancer risk factor and screening awareness among nurses and teachers in Jordan, 276
Cytotoxic therapy, sexual functioning and menopause with in breast cancer, 57

Databases, on cancer nursing services, 404
Decision making
computer-assisted intervention for in breast cancer, 417
in men with prostate cancer and their partners, 42
Denmark, psychosocial home visits in cancer treatment in, 350
Depression, relaxation and imagery for in advanced cancer patients, 432
Diagnosis
family's perspective on, 236
molecular biology and genomics in, 110
nurse attitudes toward truthful communication of, 436
truth disclosure of and impact on bereaved Japanese families, 396
Disclosure, influence of on bereaved Japanese families, 396

Education, on breast cancer risk factors and screening in Jordan, 276
Educational opportunities, 7, 109, 218, 332
Embodied meaning, of alleviated suffering, 318
Embodiment, unified and dichotomized, 141
Emotion-focused coping strategies, for stress in cancer patients, 425
Emotional coherence, finding meaning of illness in, 141
Endocrine therapies
adverse effects of, 12S
for breast cancer, 6S
for metastatic breast cancer, nursing role in patient education on, 12S
Energy conservation and activity management (ECAM), pilot study of for cancer treatment-related fatigue, 333
Erratum: "Estrogen receptor downregulators: new advances in managing breast cancer" [March/April 2002 supplement: 12S-17S], 195
Estrogen receptor downregulators
for breast cancer, 6S
continuing education test on, 18S
in managing advanced breast cancer, 2S
Ethics
of genetic testing for cancer predisposition, 15
of informed consent in pediatric bone marrow transplantation research, 81
Evidence-based research, priorities of for cancer nursing services, 404
Exercise, determinants of in breast and prostate cancer survivors, 88
Expressive metaphors, in cancer narrative, 230

Family
living with malignant brain tumor, 236
spiritual support for, 209
stress on with children with cancer, 66
Family caregivers
information needs of for newly diagnosed cancer patients, 181
rating patient physical and psychological symptom well-being, 358
Family-related barriers, to truthfulness in terminal cancer cases in Taiwan, 486
Family risk, of colorectal cancer, health-related behaviors and, 251
Father, anxiety of over children with cancer, 66
Fatherhood, for men with cancer, 477
Fatigue
in breast cancer patients receiving adjuvant chemotherapy, 283
continuing education test for, 298
cancer treatment-related, energy conservation for, 333
coping with during chemotherapy, 300
Field of forces, in suffering experience in breast cancer patients, 96
Fulvestrant
adverse effects of, 12S
for breast cancer, 6S
for metastatic breast cancer, 12S

Gene therapy, advances in, 110
Genetic counseling
in clinical cancer care, 110
nursing role in, 196
Genetic predisposition testing, nursing role in, 196
Genetic risk, of colorectal cancer, health-related behaviors and, 251
Genetic testing
for cancer predisposition, 15
continuing education test on, 26
health beliefs of first-degree relatives and, 251
for prostate cancer susceptibility among African Americans, 28
Genetics
in clinical cancer care, 110
nursing role in, 196
continuing education test on, 207
Genomics
application of to clinical cancer care, 110
in clinical cancer care, 123
Greece, nurse attitudes toward truthful communication with cancer patients in, 436
Greek nurses, pain management knowledge of, 8
Guided imagery, for anxiety and depression control in advanced cancer patients, 432

Head and neck cancers, complications of radiation therapy for, 461
Health beliefs
health maintenance visits and in colorectal cancer patient relatives, 251
of Korean women, Champion's Health Belief Model Scale for, 391
Health-related behaviors
among Korean women taking Pap smear tests, 385
in breast cancer patients, 219
Health-related quality of life, in pediatric cancer patients, 74
Hereditary cancer syndrome, nursing role in, 196
Hispanic population, computer-based cancer education for, 245
Home care patients
influencing factors of place of death among, 158
overcoming patient-related barriers to cancer pain management in, 470
Home visits, qualitative study of, 350
Hong Kong Chinese women, knowledge about cervical cancer and cervical screening among, 377
Hormone replacement therapy, in sexual functioning after breast cancer treatment, 57
Hot flashes, magnetic therapy for, 104

Illness narratives, expressive metaphors in, 230
Independence, with alleviated suffering, 318
Index of Nausea, Vomiting, and Retching, Chinese translation of, 134
Information
preferences for
in breast cancer patients receiving radiation therapy, 266
in men with prostate cancer and their partners, 42
Information needs
of breast cancer patients receiving radiation therapy, 266
of family of malignant brain tumor patient, 236
of Japanese family caregivers of newly diagnosed cancer patients, 181
of men with prostate cancer and their partners, 35
Information-seeking behaviors, of men with prostate cancer and their partners, 35
Informed consent
ethical issues of in pediatric bone marrow transplantation research, 81
for genetic testing, 15, 196
Inherited cancers, nursing role in, 196
Instrument development, for measuring health-related quality of life in children with cancer, 74
Instrument testing, cross-cultural, 1
Interventions
for coping with fatigue during chemotherapy, 300
Interviews, of family on living with malignant brain tumor, 236

Japanese caregivers, information needs of for newly diagnosed cancer patients, 181
Japanese families, truth disclosure of cancer diagnosis influence on, 396
Jordan
breast cancer risk factors and screening awareness among nurses and teachers in, 276
health-related behaviors and lifestyle factors of breast cancer patients in, 219

Knowledge, about cervical cancer and screening among Hong Kong Chinese women, 377
Knowledge and Attitudes Survey, of pain management, 8
Korean women
intention to repeat Pap smear test and affective response to previous test among, 385
translation and validation of Champion's Health Belief Model Scale with, 391

Life-world phenomenologic study, of meaning of alleviated suffering, 318
Lifestyle
in breast cancer patients, 219
modification of for high-risk populations, 110
Literature review, on cancer nursing services, 404
Lived retreat, being in with alleviated suffering, 318
Long-term self-perceived symptoms, in testicular cancer survivors, 187
Lung cancer
non-small cell, coping strategies for symptoms distress in, 309
truth disclosure of diagnosis of and influence on bereaved Japanese families, 396

Magnetic therapy, for hot flashes after breast cancer, pilot study of, 104
Mastery, of self-image in men with cancer, 477
Meaning of illness, in emotional coherence, 141
Media news, 103, 229, 325, 357, 424
Megestrol, for breast cancer, 6S
Men, cancer in, 477
Menopause
chemotherapy-induced, sexual functioning and in women with breast cancer, 57
magnetic therapy for symptoms of after breast cancer, 104
Metastatic breast cancer
endocrine therapies for, 6S
estrogen receptor downregulators for, 2S
patient education on endocrine therapy for, 12S
Molecular biology
application of to clinical cancer care, 110
in cancer genetics, 196
in clinical cancer care, 123
Morbidity, with radiation therapy for head and neck cancers, 461
Mothers, of children in bone marrow transplantation research, 81
Mucositis, with radiation therapy for head and neck cancers, 461
Multidisciplinary management, of colorectal cancer, 150
Multiple myeloma, symptom management and outpatient transplantation for, 452

Narrative communication, expressive metaphors in, 230
Nausea, measurement of for Chinese healthcare providers, 134
Newly diagnosed cancer, information needs of Japanese family caregivers for, 181

Next of kin, rating patient physical and psychological symptom well-being, 358
continuing education test on, 375
Nurse attitudes
toward research, 167
toward truthful communication with cancer patients, 436
Nurses' knowledge, of pain management, 8
Nursing research, barriers, priorities, and strategies for progress in, 167
Nursing role
in cancer genetics, 196, 207
in educating patients on endocrine therapy for metastatic breast cancer, 12S
Nursing staff assessment, for spiritual support of cancer patient families, 209
Nutritional status, in osteoporosis risk in postmenopausal breast cancer survivors, 50

Opioids
reluctance to use for cancer pain management, 125
side effects of, 125
Oral complications, with radiation therapy for head and neck cancers, 461
Osteoporosis, postmenopausal breast cancer survivors at risk for, 50
Outcome assessment, for energy conservation and activity management (ECAM), 333
Outpatient transplantation, symptom management and for multiple myeloma, 452
Ovarian functioning, cytotoxic therapy and in women with breast cancer, 57

Pain management
barriers to, 125
Greek nurses' knowledge of, 8
overcoming patient-related barriers to, 470
reluctance to use opioids and, 125
Palliative care
meaning of alleviated suffering with, 318
for terminal cancer cases in Taiwan, 486
Pap smear, intention to repeat and affective response to previous test, 385
Parent, mastery of self-image as in men with cancer, 477
Parental Perception of Uncertainty Scale, for families of children with cancer, 66
Partners of men with prostate cancer
information and decision preferences of, 42
information needs of, 35
Patient education
about prostate cancer, 42
for breast cancer patients receiving radiation therapy, 266
on cancer pain management in home care, 470
computer-based, for Hispanic patients, 245
on coping with fatigue during chemotherapy, 300
on endocrine therapy for metastatic breast cancer, 12S
Patient-provider communication, translation of Index of Nausea, Vomiting, and Retching in, 134
Patient-related barriers, to cancer pain management for home care patients, 470
Patient satisfaction, enhanced physician-patient communication in, 417
Peer counseling, for colorectal cancer patients, 150
Peripheral blood stem cell transplantation, for multiple myeloma, 452
Perlin Mastery Scale, for stress in families of children with cancer, 66
Phase III study, of topical aloe vera gel efficacy on irradiated breast tissue, 442
Phenomenology
of alleviated suffering for life-threatening cancer, 318
in assessing suffering experience in breast cancer patients, 96
Physical symptoms
next-of-kin rating of, 358
continuing education test on, 375
in testicular cancer survivors, 187
Pilot study, of prayer in cancer patients, 326
Place of death, influencing factors of in home care patients, 158
Planned behavior theory, in determining exercise behavior in breast and prostate cancer survivors, 88
Prayer, in cancer patients, 326
Prevention
of breast cancer in Jordan, 276
molecular biology and genomics in, 110
women's knowledge about, 377
Problem-focused coping strategies, for stress in cancer patients, 425
Problem-solving, in coping with stress, 425
Prognosis, molecular biology and genomics in, 110
Progressive muscle relaxation, for anxiety and depression control in advanced cancer patients, 432
Prophylactic surgery, for high-risk populations, 110
Prostate cancer
assessing information and decision preferences of men with and partners, 42
exercise in survivors of, 88
genetic susceptibility testing for, 28
information needs and information-seeking behaviors of men with and their partners, 35
Proxy raters, for patient physical and psychological symptom well-being, 358
Psychological adaptation, in coping with stress, 425
Psychological addiction, to opioids for cancer pain, 125
Psychological symptoms
next-of-kin rating of, 358
continuing education test on, 375
in sexual functioning after breast cancer treatment, 57
in testicular cancer survivors, 187
Psychometric properties, of quality of life instruments for caregivers, 342
Psychosocial home visits, qualitative study of, 350
Psychosocial oncology, home visits in, 350

Qualitative analysis
of family's experience of living with malignant brain tumor, 236
Qualitative interviews
for psychosocial home visits, 350
Quality of life
with alleviated suffering, 318
in caregivers, 342
health-related, in pediatric cancer patients, 74
rated by cancer patients and next of kin, 358
relaxation and imagery to improve in advanced cancer patients, 432
with support groups for colorectal cancer patients, 150
in testicular cancer survivors, 187
Quality of Life Index-Cancer Version, psychometric properties of, 342
Quality of Life Tool, psychometric properties of, 342

Radiation therapy
complications of in head and neck cancers, 461
evaluating patient education for, 266
topical aloe vera gel with in breast cancer, 442
Recombinant DNA therapy, in clinical cancer care, 110
Relaxation, for anxiety and depression control in advanced cancer patients, 432
Reliability
of Champion's Health Belief Model Scale with Korean women, 391
of next-of-kin ratings of patient physical and psychological symptom well-being, 358
of quality of life instruments for caregivers, 342
Research
attitudes toward, 167
barriers to in Queensland, Australia, 167

priorities for in Queensland, Australia, 167
on value of prayer for cancer patients, 326
Residual disease monitoring, molecular biology and genomics in, 110
Resources, for cancer genetics information, 196
Retching, measurement of for Chinese healthcare providers, 134
Risk factors, breast cancer, 219
awareness of among nurses and teachers in Jordan, 276

Screening
awareness of among nurses and teachers in Jordan, 276
for cervical cancer, women's knowledge about, 377
Self-help groups
for colorectal cancer patients, 150
Self-image, mastery of in men with cancer, 477
Sexual functioning
chemotherapy-induced menopause and in women with breast cancer, 57
in testicular cancer survivors, 187
Skin side-effects, efficacy of topical aloe vera gel on with radiation therapy, 442
Smoking, in breast cancer patients, 219
Social support, with home visits, 350
Spiritual support, for families of cancer patients, 209
Spirituality, in cancer patients, 326
State-Trait Anxiety Scale, for stress in families of children with cancer, 66
Stigmatization, of opioids for cancer pain management, 125
Stress
in breast cancer patients, 219
coping strategies for in cancer patients, 425
Suffering
alleviation of, meaning of, 318
in breast cancer patients, 96
long view of, 318
Support
for families of cancer patients, 209
Support groups
for colorectal cancer patients, 150
predictors of interest in, 150
Surveillance, molecular biology and genomics in, 110
Surveys
of breast cancer risk factor and screening awareness among nurses and teachers in Jordan, 276
of health beliefs and health maintenance visits in colorectal cancer patient relatives, 251
of nurses' pain management knowledge, 8
of self-perceived symptoms in testicular cancer survivors, 187
Symbolic interactionism, in finding meaning in illness, 141
Symptoms
coping strategies for distress of in non-small cell lung cancer patients, 309
management of for multiple myeloma, 452
rated by cancer patients and next of kin, 358
in testicular cancer survivors, 187

Taiwan
family-related barriers to truthfulness in terminal cancer cases in, 486
influencing factors of place of death among home care patients in, 158
overcoming patient-related barriers to cancer pain management in home care patients in, 470
Tamoxifen, for breast cancer, 6S
Terminal cancer patients
family-related barriers to truthfulness with, 486
influencing factors of place of death among, 158
Test-retest reliability, of measuring nurses' pain management knowledge, 8
Testicular cancer survivors, self-perceived physical, psychologic, and general symptoms in, 187
Transition, in self-image in men with cancer, 477
Translation
of assessment instruments, 1
of Champion's Health Belief Model Scale with Korean women, 391
of Index of Nausea, Vomiting, and Retching, 134
Transplantation, for multiple myeloma, 452
Treatment decision-making
information needs about in prostate cancer patients and partners, 35
in men with prostate cancer and partners, 42
Treatment-related fatigue, energy conservation for, 333
Truth telling
about cancer diagnoses, influence of on bereaved Japanese families, 396
family-related barriers to in Taiwanese terminal cancer cases, 486
nurse attitudes toward, 436

Uncertainty, in families of children with cancer, 66
Uncertainty Stress Scale, translation of into other languages, 1
United Kingdom, evidence base for cancer nursing practice in, 404

Validity
of Champion's Health Belief Model Scale with Korean women, 391
of next-of-kin ratings of patient physical and psychological symptom well-being, 358
of quality of life instruments for caregivers, 342
Value systems
cancer suffering experience and, 96
in finding meaning in illness, 141
Vitamin D intake, in osteoporosis risk in postmenopausal breast cancer survivors, 50
Vomiting, measurement of for Chinese healthcare providers, 134

Women
breast cancer risk factors and screening awareness among in Jordan, 276
intention to repeat Pap smear test and affective response to previous test among, 385
knowledge about cervical cancer and cervical screening among, 377
